

New Products

# Corvara DuoLift:

- + Opens from both sides
- + Max. load now 75 kg

- ✓ The roof box can be opened from the left and the right side by KAMEI DuoLift (patent pending)
- ✓ Simplified mounting: the box is first fastened on one side, then opened from the other to be conveniently fastened there as well.
- ✓ Increased payload – now **75 kg!**
- ✓ Extensive standard equipment: Fitting kits (fitting kit for cross bars with C-profil (Art.-Nr. 0 52086 10) **and** U-bolts (Art.-Nr. 0 52089 10)), storage cover (Art.-Nr. 0 81309 05, available from week 33) for titanium- and black-metallic coloured roof boxes
- ✓ 6 year guarantee
- ✓ GS certified safety

### How does the “DuoLift” work?

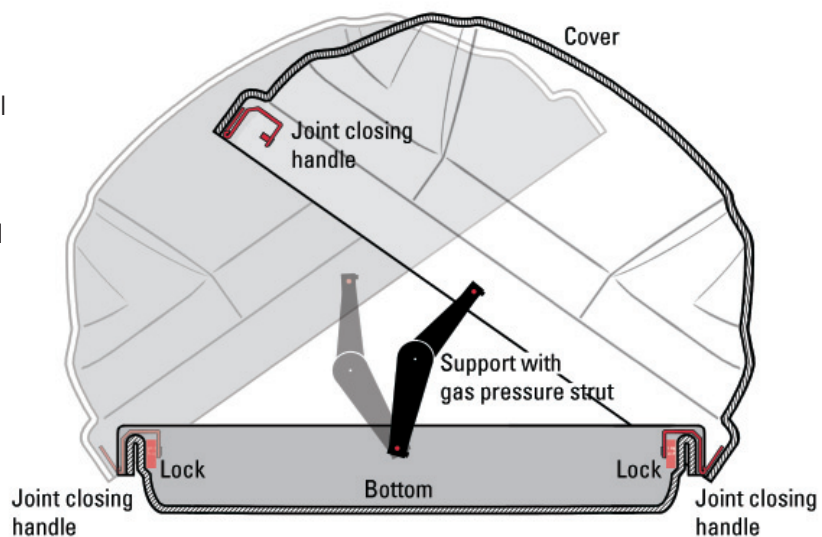

The support holding the top section of the box in place on the base acts as a hinge. The “DuoLift”, the mechanism which allows opening on both sides, comprises of this roof support combined with the central locking system which is now incorporated on both sides of the box. Now the bars of the roof-locking system also act as hinges. When the roof-box is opened on the right-hand side, the left side locking bar acts as the hinge, and vice versa.

### Your benefits:

- ✓ The roof support has a gas pressure strut to slowly and softly open and close the box
  - it doesn't suddenly jump open or snap shut
- ✓ The owner can easily replace the component without tools because of a ball joint with sliding clip
  - option of replacing the entire top section of the roof box to increase the storage place or change the colour
- ✓ no space is wasted inside the box

Corvara DuoLift-roof boxes are available from week 28.

The previous Corvara models (left or right opening) are still available, but will be discontinued soon.
