

AutoSock discontinued sizes application chart

Our web site shows all the current AutoSock sizes. The web list is larger than AutoSock's standard list which is limited to the number of tyre sizes they can show on one side of A4 paper. The list on this page shows all the discontinued sizes. If your wheel size, or the AutoSock size we have sent you, is not listed on the back of the AutoSock packet, no worries - please check it against this list.
